Big city bright lights/  
Long day's long nights/  
High as a fucking kite/  
Living the Hollywood Life/  
No future in sight/  
Pick a mother fucking vice/  
I got what you want, anything you need/  
You want to be a superstar/  
Bitch get on your knees/  
Left lane fast pace/  
Coke ecstasy and speed/  
Out, of this world out of your mind, out of your league/  
You want the spotlight baby take my hand and walk  
with me/  
I can give you fame and fortune but I'll fuck you til you  
bleed/

Chorus:

Hello Hello/  
Kick off your shoes and take off all your clothes/  
Kick off your shoes and take off all your clothes/  
Kick off your shoes and take off all your clothes/  
Hit the lights because tonight baby/  
Anything Goes/

Verse 2

When I see those lips I see you sucking my dick/  
With another bitch in between your hips licking your clit  
Awww!/  
Don't you love the smell of x rated shit I know I do/  
Last time I had pussy that pussy had you/  
Life's a bitch and I got her turning tricks for revenue/  
Dying breed/  
Top Down adjusting my rear view/  
Lime light shines bright/  
Let Hollywood define you/  
Sell your soul it's just a game right?  
Get a fucking clue/

## 2nd Chorus

Hello/  
Hello/  
Kick off your shoes and take off all your clothes/  
Kick off your shoes and take off all your clothes/  
Kick off your shoes and take off all your clothes/  
Hit the lights because tonight baby/  
Anything Goes/

## Bridge

This is a stick up/  
Stick up/  
Stick up/  
Hands in the air/  
Put the money in the bag like you just don't care/  
This is a stick up/  
Stick up ladies/  
Shirts in the air and shake your titties all around like  
you just don't care/

## 3rd Chorus

Hello/  
Hello/  
Kick off your shoes and take off all your clothes/  
Kick off your shoes and take off all your clothes/  
Kick off your shoes and take off all your clothes/  
Hit the lights because tonight baby/  
Anything Goes/
