Baby catch the moon, one handed catch
Never give a thought about tomorrow
Never give a thought about the sorrow
'Cause everything you got I'm gonna borrow

Baby paint the skies the color of your eyes
The way you make the sun shine on me
You really should be believin'
I never would think of leavin'

Before you came along, I didn't know this song
You taught me how to sing in harmony
You really should be believin'
I never would think of leavin'

La, la, la, la, la, la
La, la, la, la, la, la, la, la
I never was good at sayin'
That I always would be stayin'

Oh, Baby catch the moon and sing a silver tune
'Cause if you go the sun won't shine on me
You really should be believin'
I never would think of leavin'
I never could be deceivin'

La, la, la, la, la, la
La, la, la, la, la, la, la, la
Never was good at sayin'
That I always would be stayin'
