Coo Coo U I think you're coo coo, coo coo u  
How did you get so coo coo -- how did you?

They say it's a fact that your head is cracked  
(I think that you are loco)  
You have blown your stack you're a maniac  
(I think that you are loco)  
I just heard the news that you blew a fuse  
(I think that you are loco)  
You're a paranoid and your head's a void  
(I think that you are loco)

(Look In The Mirror)  
You are in a fog since you slipped a cog  
(I think that you are loco)  
They will set you free with lobotomy  
(I think that you are loco)  
Your cerebral vault has a single fault  
(I think that you are loco)  
It is quite well known you've become a clone  
(I think that you are loco)

Coo Coo U I think you're coo coo, coo coo u  
How did you get so coo coo - how did you?

(What's on the news?)  
Seen any good games shows lately?  
I like the news.  
I like game shows!

Psychoneurasthenic too much T.V.
