That's right baby, It seems to me you've won. Slip tight,  
baby, You had a lot of fun. You tried to make a fool of  
me And I'm the fool who just couldn't see. That's right  
baby, Laugh until you cry. Good night baby, But may I  
ask you why ? I gave you everything I had Babe, that  
couldn't be so bad ? I wonder why there's no tear in  
your eye. I wonder why there's love left for me. That's  
right baby Get it while you can. Look right baby You'll  
see with another man. While you're waiting all alone  
You'll try to call but I won't be home.
