I caught you lookin' at my baby out of the corner of my eye
We were arm in arm when you smiled at him as we went walking by
Now, I understand what could make a girl try a little trick like that
But if you're thinking of tryin' to win his love, let me tell you were it's at
Everybody's crazy 'bout my baby My baby's crazy 'bout me
Everybody's got eyes for my baby But I'm the only one he sees
So, give him a smile and try to get his attention
But one thing, girl, I'd like to mention
Everybody's crazy 'bout my baby and my baby's crazy 'bout me
Goin' walking down the avenue, he's dressed up and lookin' fine
I can hear hearts break 'cause I know just what all you pretty girls have got in mind
You smile in my face but you take my place the minute my back was turned
So before you try to steal my guy, let me tell you something I have learned
Everybody's crazy 'bout my baby My baby's crazy 'bout me
Everybody's got eyes for my baby But I'm the only one he sees
So, give him a smile and try to get his attention
But one thing, girl, I'd like to mention
Everybody's crazy 'bout my baby and my baby's crazy 'bout me
(Instrumental) You can give him a smile and try to get his attention
But one thing, girl, I wanna mention
Everybody's crazy 'bout my baby and my baby's crazy 'bout me
Woah, Woah, yeah, yeah Everybody's crazy 'bout my baby and my baby's crazy 'bout me
