"See It Like a Baby"

Visit "[See It Like a Baby](#)" on MotoLyrics.com

Look at it as though you've never seen it before
Try and forget it
So you can see it

Taste it like you never tasted it before
Try and forget it
So you can remember it

See it like a baby
See it like a baby

Love her like you've never fallen in love before
Fall out of love with her
So you can remember

Love him like you've never been with him before
Try and forget it
So you can remember it

See it like..
See it like a baby
See it like a baby
See it like
Touch it like
Taste it like
Feel it like
