Hey
Ey
Mmm
Mmm
Mmm

Hey you
You're the singer
Why don't you come out tonight
Out tonight
Out tonight
Yeah

I'm a believer
I'm a dreamer
I'm stumbling 'round
And I heard that certain something ad I had to find the
sound
I was lost but baby now I'm found

And you
You're not the first one
And you really should know

She only wants you when you're taken
(She only wants you)
She only loves you when it's raining
(She only loves you)
She only comes around to sing away the pain
She's only happy when it's gray

The thought of your body
She never gets used to it
Used to it
Used to it
Yeah

Feels like a shadow of what she used to be
Used to be
Thinking she had that certain something but she
learned it's just a trait

And its worse the older that you get

So you don't come around

Yeah

(Yeah)

(Yeah)

You're wasting your time

She only wants you when you're taken

(She only wants you)

She only loves you when it's raining

(She only loves you)

She only comes around to sing away the pain

She's only happy when it's gray

Slowly but surely she'll bring you down

So don't you come around

She only wants you 'cause you're taken

(She only wants you)

She's only happy when it's raining

Yeah

She only wants you when you're taken

(She only wants you)

Hey

She only loves you when it's raining

Ah

(She only loves you)

She only comes around to sing away the pain

Oh

She's only happy when it's gray

Yeah

Yeah

Yeah

(She only wants you)

(She only loves you)
