Watch it, my friends warned me, should you meet with
her even once,
You won't be able to help yourself, telling me to be
careful, to be careful
For some reason since the moment I met her it feels
like I've been sucked in
Even if tried to turn around, it's too late now, already
too late

Don't stop movin; don't stop, like I am now
Make me interested, keep on baby
Don't stop grooving; I like the way this moment is so
much
I don't know what it is, but don't stop, please
Touch my body; my heart feeling like it's going to
explode
I can't leave you anymore, so just
Watch me lose it; I'm at a loss for words at the way
you move
I crumble at your touch, yeah

The moment her hands brushed against me
It felt like tingling electricity went through me
Her eyes hypnotizing me,
I can't avoid it any longer, I'm hooked
If she leaves me immediately
I don't know if I might go crazy
She's already caught me
She got me crazy. She make me crazy

Don't stop movin; don't stop, like I am now
Make me interested, keep on baby
Don't stop grooving; I like the way this moment is so
much
I don't know what it is, but don't stop, please
Touch my body; my heart feeling like it's going to
explode
I can't leave you anymore, so just
Watch me lose it; I'm at a loss for words at the way
you move
I crumble at your touch, yeah

How can this be a true story? I can't believe this is
happening.
So scandalous. I'm so spiritless.
I can't escape your embrace now
Oh what can I do? What should I do? I can't leave her
side anymore
Her scent, the way she moves, all my sense have gone
numb
Like a moth trapped in a spider web, even if I struggle,
I can't escape
It's too late now, it's too late for me to turn back
