"It's Got To Be Love"

Visit "[It's Got To Be Love](#)" on MotoLyrics.com

It's got to be love
If the hate is there I won't feel it
Respect it's got to be love
It's got to be love you know it's got to be love
Cause even when the snakes gets shown and leave
And even if the hate is on I already know come closer
let's chop it up
Let me take you to them towns in which we will pop it up
Youngers
We never form our true values only the obvious the
jewels the money
In God we trust .. they were probably fucked and a
chance to stay with that man
Money talks what is up from certain things you got to
keep your hands off
All leave in fear of the people that you .. for I know is
love kid just keep it straight women
Your frustration is the only reason that faith hits me the
same mission dog the same on your mind
The same come and go the same finish line so .. about
drugs losing lot of .. stuff from the bottom ..
Don't know how to beat us so we got to be heard
and we got to be at the same time is got to be love
It's got to be love It's got to be love
Cause even when the snakes gets shown and leave
And even if the hate is on I already know
Cause even when the snakes gets shown and leave
And even if the hate is on I already know
First the final moves then ..we find that special part
Is time to see the plane .. I go to rip it them mix it damn
Is your the feel is different when you are really in it
when you
If you pay rent you will never make a .. from it we got
our dreams
Before we thought about a dream house we already
knew it
We are fixing .. different verse less speakable still we
make it work
We say biggy lines as we said .. first spread love is the
Mc way to this day is .. till it fit
Out of disrespect but for the love for the gang we try to
act our own thing

Never gave up I am still doing it I am still moving if you wonder
It's got to be love It's got to be love
Cause even when the snakes gets shown and leave
And even if the hate is on I already know
Cause even when the snakes gets shown and leave
And even if the hate is on I already know
It's got to be love It's got to be love
Cause even when the snakes gets shown and leave
And even if the hate is on I already know
Cause even when the snakes gets shown and leave
And even if the hate is on I already know
Hustle at the momma house she ain't never pull herself
She let us stay that got to be love time is outside creeping
And my shorty caught me creeping she kept me that got to be love
I have to save .. for three years and the nigger is still here we go through it
But it's got to be love and you got niggers that can't stand me
But their hate comes handy and somehow that's got to be love
It's got to be love It's got to be love
Cause even when the snakes gets shown and leave
And even if the hate is on I already know
Cause even when the snakes gets shown and leave
And even if the hate is on I already know
It's got to be love It's got to be love
Cause even when the snakes gets shown and leave
And even if the hate is on I already know
Cause even when the snakes gets shown and leave
And even if the hate is on I already know
