(Feat. Tae Won, aka, C-L...)

It feels like my breathing is going to stop, now come
closer
The rhythm that runs into my chest, show me yourself
now
Friends come out now, shall we start
Everyone's done getting ready
All eyes on me, oh oh oh
Put everything behind you
When I walk over, the world

Everyone holds their breath
Pull back the hazy fog
Okay, just like that
I said let me let me let me touch ya
Everyone holds their breath
Extend your hand to me
Now towards me
I said let me let me let me touch ya

The club's getting hotter, my heart is calling you
Ladies tapping their feet, I'm different from the
others
The rhythm that beats in my heart, I'll show you now
Now friends, let's start with me again
I only have you in my sight
And now slow motion, and oh oh oh
Put everything behind you
When I walk over, the world

Everyone holds their breath
Pull back the hazy fog
Now towards me
I said let me let me let me touch ya
Everyone holds their breath
Extend your hand to me
Now towards me
I said let me let me let me touch ya

Bridge:

So even if you cleared your eyes and searched

So that you won't find a person as good as me
I want to hold onto you
Show me yourself
It all starts now

Everyone holds their breath
Pull back the hazy fog
Now towards me
I said let me let me let me touch ya
Everyone holds their breath
Extend your hand to me
Now towards me
I said let me let me let me touch ya
