Got these many eyes to see with  
And so many ways to be  
Many small words to get lost in  
And I think it's quite surprising  
That you can hear me when I speak  
That you have found the love I seek  
You say your puzzle is complete  
You close the door, you turn the key  
Life your life on the balcony

Life your life on the balcony  
Life your life on the balcony  
Life your life on the balcony  
See, the curtain opens slowly  
And the movie is in colour  
And there is nothing much to worry  
Good-bye, good-bye, good-bye

You've got these many eyes to see with  
And so many ways to be  
Many small words to get lost in  
And I think it's quite surprising  
That you can hear me when I speak  
That you have found the love I seek  
You say your puzzle is complete  
You close the door, you turn the key  
Life your life on the balcony

Life your life on the balcony  
Life your life on the balcony  
Life your life on the balcony  
See, the curtain opens slowly  
And the movie is in colour  
And there is nothing much to worry

Good-bye, good-bye, good-bye  
Good-bye, good-bye...
