i am the one to choose whatever i do  
and if i choose to say whatever comes my way  
is it a moment of truth or totally fake  
it's what i choose to take  
and if i choose to suffer  
i want to suffer real good  
'cause than i know what i've got  
and if it's worth it or not  
and if i choose to love you  
with a love so strong  
that i might even hate you some  
i'll be aware of what's going on  
i know that i choose right  
when i don't want to lose sight  
and i see all i need to get is the woman that i  
am  
all i really own is this world i'm living in

here i choose to choose everything i can get  
everything that i lose what i keep and what i let  
every promise i make and every rule that i break  
if i tumble and fall or if i take control  
the things that i believe in fulfilling or deceiving  
everything that i learn if i shine or if i burn  
'cause the only thing i am responsible for  
is what happens to me and to the whole wide world  
it's a good choice  
when it is my choice

responsible is what you are  
i guess that you can take it  
responsible is what we are  
we are, and i know that we can take it

and if i choose to party i want to party real hard  
when i wanna be lonesome you won't hear me complain  
none  
and if i choose to miss you with all my might  
it'll be the only thing i'm good at then  
the only thing that suits me right

i know that i choose right

when i don't want to lose sight  
and i see all i fñç, Æç€e got is the woman that i  
am  
all i really own is this world i'm living in
