Lost and lonely
Clouds hide the sun
Out on the highway
It's all hit and run

Cold empty nights
Demons in my head
It's something I did
Or baby something you said

And it's hard to discover
That you're just another
Jealous lover
And it's so tough to take
But you're making no mistake
Jealous lover
Oh yeah
Don't want no other

Shades of red
Eyes of green
Sees black and white
And there's no in between

Ask me no questions
I'll tell you no lies
Still you keep thinking
That it's all alibis

And it's hard to discover
You're like any other
Jealous lover
And you're saying I'm a fake
Don't you making a mistake
Oh, no no

Every day it's the same
The faces and the names
How long can I go on
Playing this game

So I live for the nights

Soft candle lights
Today they love you
Then tomorrow they might

And it's hard to face
Someone else takes your place
Jealous lover
And they're saying that's the brakes
But I got what it takes
Jealous lover, ohh oh
Jealous lover
Jealous lover

Don't need no, no no
Don't need no other
Jealous lover, yeah
Jealous lover
Jealous lover
