Save me some time
Just pick me up
On A and 9th
Save me some time
The streets are slow
Can we go
For a ride?
You want me completely
And I'm ready
And so I began
The double life
I began the double life
Save me some time
Just take me out
On A and 9th
Save me some time
I always wanted to wake up
On the Lower East Side
You want me completely
And I'm ready
And it's fine
And so I began
The double life
I began the double life
I wasn't paying attention
And you quietly reeled me in again
I wasn't paying attention
And you quietly reeled me in again
And after all the games
It's business as usual again
It's just business as usual
Save me some time
I looked out into
The eager night
Save me some time
I can't tell any more
What's yours and what's mine
