That girl, I can't stand her.  
Not at all. She makes me so angry.  
Why do u stay when u know I can't stand it?  
She wants you to give her something you cannot.  
That's why I'm tellin u one time  
If it's needed, I'll be there to save you!  
Save you! Save you! From yourself.  
What to do now? You won't listen to reason.  
Every time to stop with her,  
you find some excuse. Well I'm tired of hearin them.  
I'm tired of you lying. I'm tired of being apart. That's  
why  
If the situation arises, I'll be there to save you!  
Save you! Save you! From yourself.  
When the smoke clears, I'm still standin there.  
Waiting for you to make up your mind.  
don't leave me again! Hold me and love me!  
Tell me, tell me, how much you care!  
If that storm comes, I'll be there to save you!  
Save you! Save you! From yourself.  
I'll be there to save you!  
Save you! Save you! From yourself.  
I'll be there to save you! Save you! Save you! From  
yourself.  
From yourself and her.
