It was a dark and moonless night.
She was on her way home. Three men were in the shadows,
she didn't even see them. Didn't even know what was coming--until it did.
Lucky for her, he heard them coming,
long before she was even near.
The shadows concealed him,
finally he was safe. He neared them,
he took them, he beat them down for her, he saved her.
She watched him fight, she watched him,
save her life. And she loved him, from that day on.
In the shadows, you'll find,
everything you need and love!
In the shadows, you can hide,
from the way you feel inside.
Go there now, and disappear, into the shadows of love.
He held her close, he whispered in her ear.
He told her how much he loved and cared. He told her why he loved her so.
In the shadows, you'll find,
everything you need and love!
In the shadows, you can hide,
from the way you feel inside.
Go there now, and disappear, into the shadows of love.
Hope came in the form of the boy here next to her.
She suddenly knew, what they all said was true.
This was her love, her one and only love, and she knew
In the shadows, you'll find,
everything you need and love!
In the shadows, you can hide,
from the way you feel inside.
Go there now, and disappear,
into the shadows of love. In the shadows,
you'll find, everything you need and love!
In the shadows, you can hide,
from the way you feel inside.
Go there now, and disappear, into the shadows of love.
In the shadows, you'll find,
everything you need and love!

In the shadows, you can hide,
from the way you feel inside.
Go there now, and disappear, into the shadows of love.
