Expert opinions
Amount to rumors,
As far as you're concerned.
And documentation
Of your medical condition
Won't do us right,
Won't help you sleep tonight.
There's so little way to help you,
And i only have two arms,
With needles drawing out my wishes,
Centrifuge them back to you.
Case studies
Amount to rumors,
As far as you're concerned.
And scott and sloan
Are your guardian angels,
But are you better off?
Are you?
Risperadal, rohypnol, progesterone.
I've gone away
But i can't escape the fact
That you're not home.
