"The Laughter"

Visit "[The Laughter](#)" on MotoLyrics.com

They talk about me, they talk about you
Talking about what we've done through the years
Ask me about it I know what you feel
I'll hold this together for you

Some things we do, I know it's a few
Moments to keep in my heart for you
You painted the picture the way that we are
But they never see it the way we do

A constant pain, but a colorful pain
Goes through our love and it's always the same
My lack of direction could be what you call a free-way
to anxiety

We never do it the way that they're doing it here
We never say it the way that they're saying it here
We don't share the laughter
We don't share the laughter

They talk about me, they talk about us
Talking about what we've done through the years
Ask me about it, I feel what you feel
I'll hold this together for you

You brought me to life, you'll bring to death
And right about time we captured it all
But how can it be when you're standing to fall
They never see it the way we do

We never do it the way that they're doing it here
We never say it the way that they're saying it here
We never chase it the way that they're doing it here
We never fake it the way that they're faking it here
We don't share the laughter
We don't share the laughter
