(1) Rock you house you
Turn the fire up takin' over
Rock you house you
People get strong
Rock you house you
Time to take the weight
Off your shoulder
Rock you house you
People move on
And yes it's time to grow
Spent enough time to know
To believe in you is blind
You only tell us lies
So now that we've agreed
It's time to end your greed
The unanimous decision
Is to rock you
(1)
You shake a million hands
Make a million plans
The give a promise
To the poor
And millions a war
We tried to beg and plead
Still you ignore our needs
So the only way to teach you
Is to rock you
(1)
When I think about the
Babies' eyes
Longing from hunger
It makes me wanna
Cry, cry cry
Then the situation
Of our mothers
And our brothers
Well I know, I know
We can make it better.
(1)
To the nations telling lies
To the brothers

Down the block
To the power on the street
To the critics on my jock
Shut up and dance!!
