"April Showers"

There's no place I'd rather be
Than with you right next to me
Huddled up under my umbrella
Though the rain keeps falling down
I never see you frown
You're always up for any type of weather

Ba ba ba ba ba
April showers

It's soaking to the bone
We should have stayed at home
I don't care as long as we're together
Or we'll stay in instead
Laying in our bed
We don't have to get up till never

Ba ba ba ba ba
April showers
April showers
Meet me here this time next year

There's no place I'd rather be
Than with you right next to me
Huddled up under my umbrella
Though the rain keeps falling down
I never see you frown
You're always up for any type of weather

Ba ba ba ba ba
April showers
April showers
April showers
Meet me here this time next year
