Her heart she hold
To know it all
I descend into limbo
I'm a lonely lone wolf In the desert night my feet grow
cold
But I'm on the stereo, stereo, stereo

She grows numb I'm the night
And It's hard, hard, hard when she's gone
But I know, yes I know
I see you later
And I know, yes I know
I see you later

The other side whispers in my ear
All the things that I wanna hear, all the things that I
wanna hear
She's a sea of thoughts and the city's dark her lips to
cold
To be just a passenger, a passenger, a passenger

She grows numb I'm the night
And It's so hard, hard, hard when she's gone
And I know, yes I know
I see you later
And I know, yes I know
I see you later

Through the trees I see shadow's
And I'm scared I'm scared, scared of the black
But I'm there, there, there when she asks
Yes, I'm there, there, there when she asks

And I know, yes I know
I see you later
Ooh, I know, yes I know
I see you later

And I know, and I know, and I know,
and I know we're going to the other side
And I know, and I know, and I know,

and I know we're going to the other side
And I know, and I know, and I know,
and I know we're going to the other side
And I know, and I know, and I know,
and I know we're going to the other side
And I know, and I know, and I know,
and I know we're going to the other side
