She's my baby
She belongs to me
But yesterday she walked home all alone
Everybody else looks at my baby
Then they wanna know her name

Baby's feeling bad today
She said she's thinking of going away
Only I'm crying
But my body's dry

But I remember you
She's my baby
Ain't that something?
But I know she belongs to you

Yesterday was another day
When I saw your baby walking home all alone

I'm feelin' sorry I called you but
I guess that I forgot your name
But Baby's feeling bad today
She said she's thinking of going away

But she's just like lightning
She goes right through you
Then you'll know you'll never be the same
Now everybody knows all around the corner
Just to see your baby walking home

She's my baby
Ain't that something?
But I know she belongs to you
She belongs to you
