Force fed, intrinsic science fiction.  
Followed every word that they said,  
No questions, no convictions.  
You can count me out,  
And cancel my subscription.  
Yeah, oh yeah.

#### CHORUS:

This may be hard to understand,  
But the faith don't make the man.  
I think it's safe to say,  
Life's too short, live it your own way.

Soft perceptions, of the minds of children.  
Soak up all your suggestions,  
Post-hypnotic living.  
Let them find their own,  
With intelligent tools you give them.  
Yeah, yeah, yeah.

#### -CHORUS-

Life's too short, so  
Live it your own way.
