Nobody ever said,
This would be easy.
Nobody ever told us,
That there'd be nights like this.

Is it feasible for us to feel right
In our own skin?
Only if we break the surface tension,
And dive right in.

Break surface tension,
And dive right in.

You'll be knocked off your feet
About a million times.
As long as you stand up a million and one,
You're doin' fine.

Just when you think
You're as low as you've ever been
Now you're feelin' like you're buried
With the earth you dug out.
There you go thinking again.

Break surface tension,
And dive right in.
Failure is not an option.
Break surface tension,
And dive right in.

CHORUS:
The prologue is over, let the story begin.
(With nothing to prove to anyone but yourself)
Shot down tonight, tomorrow, at it again.
(Either give it your all, or pack it up on the shelf)
We gotta suffer, before we prevail.
(Stop, take a breath, inhale, exhale)

Cause we, can't shake,
Can't break, Or else we're bound to...

(Cause failure is not an option)

-CHORUS-X2
