I have a dream in my mind
Baby hold the line it's the way that I want you
This is my time to decide
Want you tell you that got to know it about me

Under the moonlight I see the fire
Baby I wanna scream, do it baby
Nobody told me and now I'm in danger
Do it now something for me
He's coming

Hot vampire
Crazy desire
I feel you happy
Kiss to kiss
Sex vampire
Put on the fire
I feel you ready, whoa!

Run in the night down the light
Dancin' all the time with you baby vampire
Black is your tight like a cloak
Show me what you feel with an extreme desire
