Days they go so soon
Emptying this room
And I will follow too
So feet don't fail me

The blind they lead the blind
But seekers always find
And truth will have it's time so I say
Heart don't fail me

And I'm just trying to understand
Love don't fail me
And I'm just trying to see the plan
Love don't fail me

Darkness plants a seed
With worn and weary feet
When all is veiled in grief oh I sing
Light don't fail me

And I'm just trying to understand
Love don't fail me
And I'm just trying to see the plan
Love don't fail me
If my design is by your hand
Love don't fail me
Love don't fail me
Love don't fail me
Love... won't... fail me
