You cannot let go of your dreams
Don't believe that you'll never succeed
We have our respective needs
Follow them up it's easier than it seems

Don't let anyone pull you down
Envy is dangerous take your fight
Always struggle to stay on the ground
Stick together when end is in sight

Accusations go in your face with disgrace
(Go in your face)
Rumors keeps you away from the right track
Remember the knife always land in the back

Don't let anyone pull you down to the ground
(Down to the ground)
I never believe what I haven't seen
I suggest you do the same

I'm so sick and tired of this shit
Simple and clean this is what I mean
No symbols to modulate this
Read it from left to right with no twists

What is wrong with you do you smoke crack?
Going on like that talk behind my back
If I'd use violence I'd give you a raised fist
Just to make sure that you never forget this

Accusations go in your face with disgrace
(Go in your face)
Rumors keeps you away from the right track
Remember the knife always land in the back

Don't let anyone pull you down to the ground
(Down to the ground)
I never believe what I haven't seen
I suggest you do the same

Don't let anyone pull you down
Envy is dangerous take your fight

Always struggle to stay on the ground
Stick together when end is in sight
