Go!

I got a poster with a message beneath contempt
Bunch of insects their mistakes are so frequent
One injection of new life in new ideas
Takes us so much further from finding peace

First I find myself forced to oppose that kind of
stupidity
Your propaganda seems to disappear into infinity
Secondly I feel like throwing up when I see
Salvation army of noble races living in misery

Empty words in my face
It's your dedication I want to embrace
Impressive to see all the energy go to waste
Ridiculous to see how you keep your arms raised
How you keep your arms raised, how

Now I'm standing on the point of interception
I've installed myself ready for your inspection
Equivalence is not a word in your vocabulary
You got nothing to say and that scares me

First I find myself forced to oppose that kind of
stupidity
Your propaganda seems to disappear into infinity
Secondly I feel like throwing up when I see
Salvation army of noble races living in misery

I got a poster with a message beneath contempt
Bunch of insects their mistakes are so frequent
One injection of new life into new ideas
Takes us further away from finding peace

And I feel like throwing up when I see
Salvation army of noble races living in misery
Impressive to see all the energy go to waste
Ridiculous to see how you keep your arms raised

Empty words in my face
It's your dedication I want to embrace

Impressive to see all the energy go to waste
Ridiculous to see how you keep your arms raised

Empty words in my face
It's your dedication I want to embrace
Impressive to see all the energy go to waste
Ridiculous to see how you keep your arms raised
