

## **Raised Fist "People Behind"**

Visit "[People Behind](#)" on [MotoLyrics.com](https://MotoLyrics.com)

This ripped apart large sections of my social life  
Disabled from a bitter conflict with a surgical knife  
If there was a possibility, I would give away my wings  
Give my wings to you so you could fly away from the  
bombings

Dead bodies on the ground and a whispering sound  
Another victim down, it's the daily round  
Another explosion, panic and motion  
Smoke from a rooftop, this will never stop

I have no desire to end up in the crossfire  
Is there anything that I can do for you?  
To remove the barbed wire and to send out more flyers  
Doesn't really change what this is developing to

Dead bodies on the ground and a whispering sound  
Another victim down, it's the daily round  
Another explosion, panic and motion  
Smoke from a rooftop, this will never stop

Your advice could be to demilitarize  
But it's not the weapons that kills, it's the people behind  
When no logic applies and no one tries  
And no one is willing to compromise

I have no desire to end up in the crossfire  
Is there anything I can do for you?  
When no logic applies and no one tries  
And no one is willing to compromise

Dead bodies on the ground and a whispering sound  
Another victim down, it's the daily round  
Another explosion, panic and motion  
Smoke from a rooftop, this will never stop
