"To Make Up My Mind"

I'm needing this time to
make up my mind every
time when we're lonely
together I think of the
options I've got you
have disturbed me for a
long time right now how
much is it for me to take
chourus: listen I really got
to finda way to make up
my mind don't play with
me like I'm just in your
way I'm so sick and tired
of this now you are out
and there is nowhere to
go so take your
goddamned kiss you put
me up in the dirt you
never thought that I got
up by just a grab in your
skirt and this is my way
to say with no delay I'm
never going your way
