I just believe in myself
No one to trust
No one to believe in
But I cannot win this fight by myself
I need some help
And I need it quickly

You've started to run
All by yourself
And I wonder where are your friends now

Feeling the pain in my head
But I have to go on
I have to go through this shit
That you throw in my face
What is enough
When are you going to stop

You've started to run
All by yourself
And I wonder where are your friends now?

Feeling the pain in my head
I've tried to be strong
But I wish I was dead
Hated so much in my life
Acted so wrong
Time after time

I've seen your friends come and go
No one will stay when you're full of your emptiness
What has happened to you
First so find, now you're acting divine
In the search for yourself
The only thing you find
Is that no one likes you

I left you alone
You left me alone
And everything felt so fine
I'm going to raise mine
Cos my hate for you is coming back

Some of them are my friends
Some of them aren't just chasing trends

Some of them are my friends
Some of them aren't just chasing trends
Some times it's easy to see
When they try real hard
To be me

All by -- Myself
I'm wanna take them out
Do something -- Just anything
To keep them out of my sight

Some of them are my friends
Some of them aren't just chasing trends

All by -- Myself
I'm wanna take them out
Do something -- Just anything
To keep them out of my sight, yeah

Feeling the pain in my head
I've tried to be strong
But I wish I was dead
Hated so much in my life
Acted so wrong
Time after time
