On the other side of our dimension  
where the truth has no name  
there is pain for you and me  
It's been after us for all of our lives  
I've seen it in my dreams  
now that I know the end is near

It has been after me  
trying to make me see  
It drives me to insanity  
It all has to end...

Chorus:  
Father, what's coming nex?  
Disaster, followed by death  
Forsaken by lies

Am I the only one who discovered  
who found the other side?  
There is a truth about everyone  
the freedom of speech is hard to bear  
I've seen it all on this side  
and I've watched it all with fear

You have been after me  
trying to make me see  
It drives me to insanity  
It all has to end...

CHORUS

I'm giving in, I'm letting it go  
I'm losing it, I'm losing control  
I want to knoe the truth no more  
Please lie to me again...

CHORUS
