Nothing you offer is fine with me
I live my life with no guarantee
Taking day by day by myself
keep the thing you say to yourself

Chorus:

I look at you with despise in my eyes
You tried to tease
but you only released the devil in me

Devil may care!

Why don't you have a closer look

on why you live your life after a book
I don't have to read the pages
I write new ones as they come to me

Chorus

Now you regret it
I'm sorry you didn't get it
Now you realize it
Your life ain't worth shit
When the damage is done

Chorus
