Three hours of daylight  
makes you want to stay inside  
New morning doesn't welcome you  
the darkness surrounds you

The moon is having fun  
laughing at the sun  
But soon it will shine  
and all will be fine  
Soon it will shine  
and all will be fine

I'm staring out the window  
There's not much to see but snow  
A bird is on my balcony  
hoping to find food for his family

The moon is having fun  
laughing at the sun  
But soon it will shine  
and all will be fine  
Soon it will shine  
and all will be fine

All will be fine, all will be fine, all will be fine  
Cause soon it will shine  
We will be fine, we will be fine, we will be fine  
Cause soon it will shine  
All will be fine
