### "Eternal Bliss"

Eternal bliss is an eye blink away  
Pick up the phone and do as we say  
Please listen to my hypnotic words  
they will make you agree and obey  
Just make the move and you'll be fine  
Do not fear we're controlling your mind

You can't be without us  
You can't live without us

Turn on the screen, sit back and relax  
We decide what happens next  
Just make the move and you'll be fine  
Do not fear we're controlling your mind

You can't be without us  
You can't live without us

It's all around us  
You just can't ignore it  
It's all around us  
You just can't escape it  
I got to get it out of my head  
I got to get it out of my head, now!
