Bobby wants a puppy dog for Christmas I know you plan to bring electric trains Bobby wants a puppy dog for Christmas That's the only song we hear him sing Santa, please remember Bobby's lonely The closest neighbour's farm is quite a ways And the country school don't have no children Bobby's size And I'd like to give him something he can raise And Bobby wants a puppy dog for Christmas I know you plan to bring electric trains But, Bobby wants a puppy dog for Christmas And that's the only song we hear him sing Butch and Susie won't be here for Christmas And he won't see his cousins now till spring If we can find a playmate he can play with Santa, that'll be all you have to bring And Bobby wants a puppy dog for Christmas I know you plan to bring electric trains But, Bobby wants a puppy dog for Christmas That's the only song we hear him sing
