In the land of the dead shall thee travel an isle of
ghosts and demons...
For as thy knowledge be rooted in history past - thy
thoughts shall be but echoes from the crypts of the lost
and the dead...

They that stare blindly into the hall of the past shall see
not...
While he that stands aloof and notes carefully shall
find the secrets witch lie nestled along out skirting
waters... to embrace the dead as it truth is to dwell in
darkened crypts... to cast thine eyes upon the radiant
sun let this be thy truth...

Thus may one escape the crypt, and depart the island
cube...
Thus may one escape the past and depart the island
mind...

In the midst of ruin and misery shalt thy fate lie for
thou hast chosen it for thyself this way thy kin is never
innocent they said only feeble fragment of truth they
new thou art not of thy kin thou art not of any kin in the
Valley of the Doomed shall thee wander a meadow of
shattered bones and shredded flesh for as thy eyes
are shut willingly no ray of reason shall pass to enlight
thee so thou couldst rise above the blinding mist and
ascend to the Cosmic Circle

Lurk in twilight grey soft and warm safe and silent raise
not thy sight calm thyself and live in peace calm thy
soul - "live long and prosper" calm thyself and live in
peace calm thy mind and lay thyself to sleep.

Armies of raised spirits march forth the sea of the
undead is growing hazing thy sight and guarding thy
Nemesis delight - to be blindfold... liches of thy mind
leave the spellweb that binds thee to the mire of sweet
memories safer than mother's womb: "why look ahead
and see only sorrow and pain why lost thy faith in
past..."... awake

Thou shalt stay with us, the crypt awaits thy return
cantors praise thy rest in the midst of ruin and misery
shalt thy fate lie for thou hast chosen it for thyself this
way thou art of thy undead kin march with the army
stay with thy ghosts.
