I like to go to the parties with you
I like to walk arm and arm on the avenue
See under all of the lights
Walking into the night

I like to go to the parties with you
Will hit one, maybe two
We'll see some people we know
We'll see some people we don't

But, I like to go to the parties with you
I like to be with you
Come along with me
We'll go to the parties we'll be fancy free

I like to see all the people dressed up
In their favorite clothes and such
I like to see what they choose to wear
And how they decided to do their hair

I like to go to the parties with you
I like to sit at home there's nothing to do
We could be anywhere
Sitting home in our underwear

I like to be anywhere with you
Places are made for two
Parties all around
People hitting the ground

We go home in a haze of dust
We go walking to our beds
We look and then we see
A nice soft place to lay our heads

I like to come home from the parties with you
Seen the people said "how do you do"
And now it's time to go down and lay our heads
In a nice soft king size bed

I like to go to the parties with you

I like to go to the parties
I like to see all the people
We're all having a good time
Getting real high
