all this people I see every day  
crossing my daily way  
make me wanna say  
fuck this world

on work only motherfuckers  
bosses are cock suckers  
for me they are just suckers  
fuck this world

cant you see that my heart cries?  
for girls im just one of many guys  
words about true love are just lies  
fuck this world

makes me just wanna say  
\*squeal\* \*squeal\* \*squeal\*

Submitter's comments:Â

These are the official lyrics, taken from the booklet, except for the last paragraph which I wrote down by listening since it does contain a certain creativity. I just have no idea how to spell the pigsquealing (the vocal style used in the second line of that paragraph).

Some of the other paragraphs are repeated several times in the song.
