I've got the word of California
Buzzing through my head
And I don't know how to warn you
In the state of Mississippi
Never really been there
Do you want to come with me?

Let's take a warm ride through the sunset
Don't wanna go back to where we just came from
I like it right here by your side
Let's never go back to where we just came from

And I don't have a lot of money
Just enough to get there
Do you want to come with me?
We can leave it all behind us
All of our cares
Do you want to come with me?

Let's take a warm ride through the sunset
Don't wanna go back to where we just came from
I like it right here by your side
Let's never go back to where we just came from

I never want to go back
I hope that you can see that I'm in love with you
These sixteen months have passed
And time's really going fast
I'm still in love with you
