Can you change what's the same for years gone back
I don't wanna hear about all the things I lack
I'm a bore you're a chore, what's all this for
Time is only wasting
Look at me and you'll see under lock and key
Can you be misery if you don't believe
Can you feel your self esteem
It's tried and treed
Nothing's ever changing

I don't ever want to feel like this
I don't want to be missed
Not by you!
I don't ever want to feel this way
And I thought I'd never say this
I don't ever want to let you go
I just got to let you know
I don't want to to go

You can show that you know true love can last
And you don't want to say that we had a past
You're a pain, I'm a strain, nothing's gonna change
And why are we insisting?
You can think, you can blink, and it's all the same
You can tell everyone that it's me to blame
I just feel I really want to end this shame
And time is only wasting

And now as much as I avoid you
I need you by my side
You know if I could I would destroy you
One of us must die
I don't know why this time you've turned on me
When I've been so good to you
You know these shackles really burn on me
I'm over due
