Find me alone, You can find me anywhere
When I'm alone, You can take me anywhere
You are life, You are life

In Your shadow I will lose myself to find You there
I am sheltered in Your arms
I'm a stranger when I'm alone, when I'm without You
Weary with desire
I reach to find You, everytime I rise
Painted pictures I'll resign, breathless bodies give up
life
When I'm alone with You, When I'm alone with You
When I'm alone with You, When I'm alone with You
In your shadow I will lose meself to find You there
I am sheltered in Your arms
Cause I'm a stranger when I'm alone, when I'm without
You
Weary with desire
Losing myself, I'm losing myself
Losing myself, I'm losing myself
I am weary with desire
I am weary with desire
