I cry out
I pray
I pour out
So afraid
I'm walking just to fall
Look around me no one
Ooh, You're all I want
You are all I want
You will protect me
You will save me
I am not as strong as You
This fight makes me crawl
Deliver me from this
Tear down this prison wall
Ooh, You're all I want
You are all I want
You will protect me
You will save me
Ooh, You're all I want
You are all I want
You will protect me
You will save me

Ooh, You're all I want
You are all I want
You will protect me
You will save me
