Time sure flies when you're young and on a roll  
You think you're never growing old  
Til that faithful day when it all slips away  
And you're waiting for your future to unfold

Chorus:

If I could only see you, I might not ever leave you  
Louisiana baby  
If I could only let you know I never wanna let you go  
Louisiana baby

The wheels keep turnin' and I'm not done learnin'  
I'm headin' down to New Orleans today  
Are you still down there? Do you even care?  
If I get the chance this time, I'm gonna stay

Chorus

I searched high and low amongst purple, green, and  
gold  
And down on Bourbon it was wall to wall  
But you were nowhere to be found  
Better luck next time around  
I guess it's not a small world after all

Chorus
