Baby can you see I'm your angel,
I'm your angel, I came tonight for you,
Baby can you see I'm your angel,
I'm your angel, I went this far from you.

In love, in love with your eyes,
In love, in love with your smile,
The world, the world is empty,
Just you, just you my baby.

Baby can you see I'm your angel,
I'm your angel, I came tonight for you,
Baby can you see I'm your angel,
I'm your angel, I went this far from you.

I feel, I feel the rain,
Sometimes I feel the same,
I've lost, I've lost my ways,
But I still have my dreams.

Baby can you see I'm your angel,
I'm your angel, I came tonight for you,
Baby can you see I'm your angel,
I'm your angel, I went this far from you.

Baby can you see I'm your angel,
I'm your angel, I came tonight for you,
Baby can you see I'm your angel,
I'm your angel, I went this far from you.
