----Intro----

hooks and chain baby,
rama baby

----Verse One-----

when i need you, you walk away,
never say why your going away,
and i leave you, you wanna stay,
the flame inside my heart, the flame has gone today,

-----Hook-----

I dont want to end up like this,
I never want a love quite like this,
I wanna get with you lately,
If I just had me one wish,
I'd wish that I could be a better fit.
I wanna lay with you lady,

-----Chorus-----

And I dont want no body but you,
your everything, you always please me,
Give me one more night with you,
thats all Im asking for,

Can you do it for me

Stay With me

Can you do it for me

Stay With me

-----Verse Two-----

Then I feel you, your body laid down across my bed,
baby
Make you quiver inside,
make you feel like I feel everyday

-----Hook-----

I dont want to end up like this,
I never want a love quite like this,
I wanna get with you lately,
If I just had me one wish,
I'd wish that I could be a better fit.
I wanna lay with you lady,

-----Chorus-----

And I dont want no body but you,
your everything, you always please me,
Give me one more night with you,
thats all Im asking for,

Can you do it for me

Stay With me

Can you do it for me

Stay With me

-----Bridge-----

You are my baby ,
and I can make you fly,
fly,
away with me.

-----Chorus-----

And I dont want no body but you,
your everything, you always please me,
Give me one more night with you,
thats all Im asking for,

Can you do it for me

Stay With me

Can you do it for me

Stay With me
