These are most of the lyrics to one of my favorite dance songs from the 80's.

It was very popular in the clubs around here (New Orleans -> Baton Rouge).

If you have heard this song and have any insight into some of the missing

lyrics, please correct this and send e-mail to boudre@max.ee.lsu.edu

This e-mail account will only be active during semesters I have applicable

classes and I should be graduating in December 94. Any thing in are

questionable lyrics.

Thanx,

Troy Boudreaux

@lyrics:

This is a promise and not a threat

I'm going to make you dance

And make your body sweat

You have no choice my beat is going to make you move

So get into my nasty groove

My Bass is Kickin'!

< scratching - "just feel it" from Hashim's Al-Naafiysh

side 2 bonus track >

(Rock the house) -

You know you can't resist

To jam to a beat like this

I'm dedicated to make you rock, don't ever stop

I'm on a mission to make you get up and be on top

I'm on my way, That's why I'm

My beat is in my blood, there is no doubt about it

I want to make them beats make you stop and stomp
your feet

And all you that's why I'm so unique

My Bass is Kickin'!

It took a long time for me to make a new jam

But that's alright 'cause I'll rock you baby here and now

I'm coming back, coming with beats to keep you
jumping

my groove, don't you ever ever stop

Just do the jam express rock

Get out your seat, get off the wall

Just grab a girl and grab a guy and have a ball

< scratch - "pick up on this" from SALT-N-PEPA's Push it
>

(Baby) my funky bass and noise everybody scream

This ain't no joke, this ain't no game, this ain't no
dream

You're gonna rock right, so let's rock

And you won't stop, so don't stop

Who's on the mike? D.J.'s on the mike

Who's on the mike? D.J.'s on the mike

Who's on the mike? MATRIX Break it down
