I could do a whole lot of things But I wanna hold you right now Cause nobody feels me better so I wanna hold you right now

Put your fingers in the air just like I told you right now Back to the energy that's flowing, baby close your eyes

All the jewelries and flash lights, all the money in the world

They don't really matter with you So independent Anything you want I know, that you can do it, attagirl Everything is better with you

I'm feeling free, at last Free like the morning sun and I'm going Free at last, Free like I'm flying, free like the morning sun I'm feeling free, at last Free like the morning sun and I'm going Free at last, Free like I'm flying, free like the morning sun

It's all fine and I run, run like the morning sun It's all fine and I run

Everyday my mind is running and I can't stop it But I can find it, yes I can Everyday my mind is running and I can't stop it But I can find it, yes I can

Hold my hand, don't let me go There's so much that I can show Everything is better with you Come around, don't let me go Ain't no turning back no more Everything is better with you

Let nobody stop us now girl Don't they know that no matter what they do No matter what they're moving

Oh a, oh a, oh a
Don't no matter what they lose they hate
Moral's looking really bad today
I will make it in anyway
Let nobody shatter your dreams
Every time you let it go
All of the trouble is out of your way
Every time you let it flow
Worries have nowhere to stay
Just gotta let the world know that we're about to make it
Just gotta let them know, let them know that

I'm feeling free, at last
Free like the morning sun and I'm going
Free at last,
Free like I'm flying, free like the morning sun
I'm feeling free, at last
Free like the morning sun and I'm going
Free at last,
Free like I'm flying, free like the morning sun

It's all fine and I run, run like the morning sun It's all fine and I run

Free like the morning sun Yeah

I'm feeling free
