My little love
I miss your sweetie
I miss your beauty
I need your love
I'm sitting down here
Whatching at the sky
A small river full of tears
Just wondering why
You're not here with me
You're not kissing me
I still hope to embrace you
I still hope to live with you
I still have the hope to marry you
I don't know

Chorus:

Refren:

take my hand and come
don't you think that's smart
to search together for a sun
that just shine in our hearts

What you've done to me
I don't even know
What have i done to you
Why do I feel paradise and hell
At the same time
What should I do
To make you only mine
I want to stand with you
On a mountain
I want to bath with you
In the sea
I wanna stay with you
Forever

Until the sky falls down on me

Chorus:

Refren:

you're my every single breathe
you're every little beat of my heart
you're everything to me
any fool can see
what you've done to me
you mean everything to me
I never loved someone like this before
Keep staring at your picture while I try to
Work my way around you
But nothing any good
'cause I keep thinking of you
You've just one thing to do
Please make it fast
It's not right for us to be
To be already past

Chorus: x 2

Refren x2
