I make you understand  
I'm coming out of the sand  
In my gold Egyptian headband  
The moon and stars decide who takes the carpet ride  
And who swings in...

I'll take my cosmic jive to anyone who listen  
Till you taste cosmic jive, you won't know you where  
Missing  
Cosmic jive  
A Cosmic jive

Your Spanish boots are fine  
Your Spanish boots are mine  
My... valentine  
... silver ship  
Straight trough my comic strip  
You'll be a hipster shaking hips

I'll take my cosmic jive to anyone who listen  
Till you taste cosmic jive, you won't know you where  
Missing  
Cosmic jive  
Cosmic jive  
Cosmic jive

I make you understand  
You're gonna do the strand  
In my slogan bearing headband

I'll take my cosmic jive to anyone who listen  
Till cosmic jive collides with you, I am on a mission  
I'll take my cosmic jive to anyone who listen  
Till you taste cosmic jive, you won't know you where  
Missing  
Cosmic jive  
Cosmic jive  
Cosmic jive  
Cosmic jive
